makes peoble laugh. There isn't any other thing so essential to health as regularity in the action of the bowels. Most all sickness starts with some derangement of the digestive func-tions. Good digestion means good, pure blood, and that means strength. Once let the bowels become clogged with refuse matter, and the whole system is deranged. Impure, poisonous matter gets into the blood and plants the seeds for all sorts of sickness.

Whenever there is a stoppage of the Intestinal action, help should be given immediately. Usually a mild, gentle laxative is all that is necessary. A vio-lent, wrenching, griping cathartic is never needed. Dr. Pierce's Pleasant Pellets are the most pleasant and successful remedy for occasional or chronic constiation, or costiveness. They are tiny, sugar-coated anti-bilious granules that even the smallest child can easily take. They act in perfect accord with nature and produce no griping or other disagree-able feeling. They should be taken at the first indication of digestive trouble. TAKES THE LONG STROKE.

The general opinion of watermen is that the short, sharp stroke will not do for the Henley course. One of tiese, Jackson, the famous old waterman, who has seen all the contest for many years.

"The Henley course is a difficult one. Although only a mile and five furlongs in length, it is all deadwater, with no sicion of a tide, and it takes an unamount of extra muscular strength to row over it. Old Oxford and Cambridge boating men say it does them up more completely than work from \$150 to \$500 for the chon the longer course from Putney to and made a deposit of \$50.
